DESIGN REVIEW REPORT : THREADS MOBILE APPLICATION

1. INTRODUCTION

APPLICATION SELECTED : Threads
CATEGORY : Social Media / Social Networking
PLATFORM : Android and iOS

Treads is a social media application that allows users to share text-based posts, photos, vedios, links, and interact with other users through replies, likes, reposts, and quotes.

MAIN GOAL :

To provide a simple and engaging platform for users to share ideas, follow coversations, and connect with communities.

2. WHAT IS UI ?

UI (User Interface) means everything that the user sees and interacts with in an application.

EXAMPLES :

- Buttons
- Icons
- Colours
- Fonts
- Images
- Navigation bars
- Menus
- Input fields

THREADS UI FEATURES

UI ELEMENTS	THREADS EXAMPLE
Colour	Black and white minimalist theme
Icons	Home, Search, Great, Activity and profile icons
Typography	Simple and readable text

Posts	**Clean layout for text, photos and videos**
Navigation	**Easy access to home, search, activity and profile**
Buttons	**Clear likes, reply, repost and share actions**

3. WHAT IS UX ?

UX (User Experience) means how easy, useful, comfortable and satisfying an application Feels when a user interacts with it.

FOR EXAMPLE :

- Open threads
- Tap the Create button
- Type the post
- Add a photo or video if needed
- Tap Post
- See the post published on the feed

A good UX means the user can complete the task easily without complicated instructions.

4.THREADS UX FEATURES

4.1 Simple Onboarding

Threads allows users to sign in their Instagram accout, making the initial setup simple.

4.2 Easy Navigation

Important sections such as Home, Search, Create, Activity and Profile are easily accessible.

4.3 Familiar Icons

Icons such as:

- ❤️ Like
- 💬 Reply
- 🔃 Repost
- 🔍 Search
- ✏️ Create

This help users understand actions quickly.

4.4 Feedback to Users.

Threads provides feedback through:

- Likes
- Reply
- Notifications
- Reposts

This helps users understand how others interact with their posts.

4.5 Simple Content Sharing.

Users can easily share text, photos, videos and links, making conversations more engaging.

5. UI VS UX IN THREADS

UI	UX
Black & white theme	Create a clean and simple experience
Post layout	Makes content easy to read
Like icon	Makes liking posts easy to discover
Reply icon	Makes conversations easy to join
Navigation icons	Makes major features easy to access
Create button	Makes posting quick and simple
Notifications	Gives feedback about user interactions
Profile page	Helps users manage their account

6. STRENGTHS OF THREADS DESIGN

1.Simple Interface

The interface is clean and easy for users to understand.

2.Easy Content Sharing

Users can quickly create and share text, photos, videos and links.

3. Consistents design

Common elements such as icons, posts and buttons work in a familiar way.

4. Clear feedback

Likes, relpies and notificationa clearly show user interactions.

5. Easy Navigation

Important sections can be accessed quickly through the navigation icons.

6. Engaging Conversations

Replies, reposts and quotes make it easy for users to participate in discussions.

7. WEAKNESSES / AREARS FOR IMPROVEMENT

1. Limited Content Organization

The large amount of content can sometimes make it difficult to find specific posts.

2.Features Discoverability

Some features may not be immediately obvious to new users.

3. Feed Relevance

Users may sometimes see posts that are not closely related to their interests.

4.Notifications Overload

Frequent notification can sometimes become distracting.

5.Navigation Complexity

As more features are added, the interface may become more complex for new users.

8.SUGGESTED IMPROVEMENTS

Improvement 1: Better Content Organization

Organize posts and coversations always so users can find relevant content easily.

Improvement 2: Improved Search

Provide better search and filtering options to help users find specific posts and topics.

Improvement 3: Beginner Guidance

Use short tooltips or simple guidance to help new users understand features.

Improvement 4: Better notification Control

Provide simple options to manage and customize notification.

Improvement 5: Better personalization

Allow users to customize their feed and content preferences.

UX Evaluation

Number of major steps: low
Difficulty : Easy
Feedback : Good
Learning required : Very low
Overall experience : liver-friendly

10. OVERALL DESIGN EVALUATION

Category	Rating
Visual Design	⭐⭐⭐⭐⭐
Ease of Use	⭐⭐⭐⭐⭐
Navigation	⭐⭐⭐⭐
Accessibility	⭐⭐⭐⭐
Feedback	⭐⭐⭐⭐⭐

Feature Organization ⭐⭐⭐⭐

Overall UX ⭐⭐⭐⭐⭐

11. CONCLISION

Threads is a good example of simple and engaging UI / UX designs.
Its clean interface, familiar icons, easy navigation and clear interaction
Features make it easy for users to share ideas and participate in conversations.

The application demonstrates an important UI / UX principle:

Good design should make common tasks simple and require
minimum effort from the user.

Although Threads has a clean and simple design, future improvements can
Focus on better content organization, feature discoverability and notification
Control.

Overall Rating 4.5 / 5 ⭐⭐⭐⭐1/2
